Breaking changes are an issue for:

ISV's – will you have to change your product to make it work with the new functionality from MS?

Customer Services & sales – what is changing for your customers and what work will be required to keep them operating.

Consultants – what do I need to learn that's new and how should I design solutions today that won't need to change in a few weeks.

Developers – what code do I need to rewrite and how much time will it take?

Question 97

Srinivasan R

How to access multiple Navision Services for multiple databases through web client. After publishing the web client with relevant service through power shell command, the web client is not able to open.

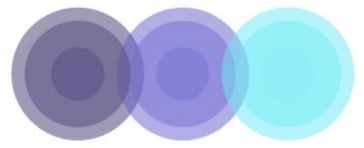

#bcopendiscussion

Question 98

Saurav Dhyani

Did anyone used NavApp.GetModuleInfo Function to get appinfo for an app via AL Codeunit? It always return false. Are there any limitation to use this function?

```
IF NavApp.GetModuleInfo(MyAPPID, MInfo) then begin
    Message('%1', MInfo.AppVersion());
    Message('%1', MInfo.DataVersion());
    Message('%1', MInfo.Id());
    Message('%1', MInfo.Name());
    Message('%1', MInfo.Publisher());
end;
```
