Question 21

Siva

- I am new to BC and have installed BC14 and VS Code on my system . My question is how to start VS code and do the basic configuration to start creating Table ,Page and Report from scratch.
- It will be very grateful for every beginners who really wants to learn from scratch.
- Hope you would give demo on coming webinars. Thank You Very Much.

Question 22

Manish

How to create **Power app** for BC Cloud version?

Question 23

Manish

How Azure function/app is used.

Need to know basic concept.

Question 24

Sahid

CodeUnit(419) FileMangement
SaveFileDialog function does not
work in Dynamics 365 Business
Central web client but work in RTC.
Need a workaround.

Question 25

Bandaru

How to open a modified customer record in business central?

I get a customer using his number, modified data, and Called Modify() method. once it is modified in the table, immediately I want to open that modified customer page through AL.

Question 26

Manish

What is the use to microsoft Azure portal? Specially, app services, SQL DB and function.

Question 27

Manish

Which are the other ways to consume 3rd party API, apart from using HttpClient in Business Central.

THANK YOU!
