Question 72

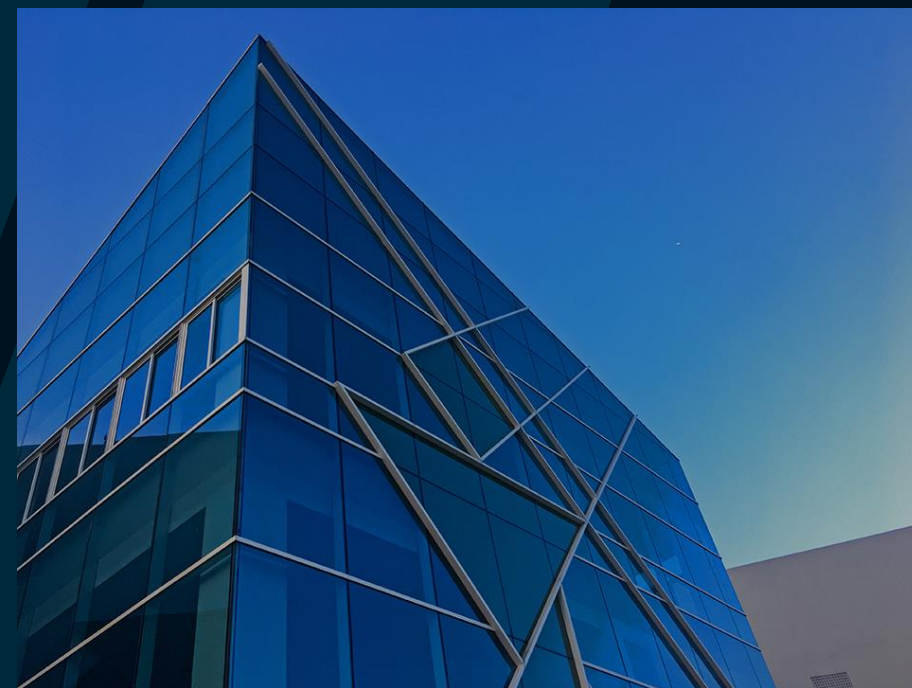

Said

Hi Saurav,

Using Memo BLOB to Enable Huge Text in FactBox, I am trying to add item description3 for each purchase line as blob in factbox area, but I am not able to insert or delete from this area is that normal?

i used the same functions of work description filed used in sales header , I add these two functions in purchase line, and I invoked these functions in my Factbox using general variable as Work description var.

Thanks.
